

Get Out to Reach Out

This February half term, get involved in 'Get Out to Reach Out!' Follow our half term plan to ensure all the family are getting plenty of fresh air, whilst reaching out and connecting with family and friends, the environment and the local community.

Special Post

Draw a picture or write a letter to a family member or friend, pop it in the postbox and know that their day will be a little brighter when they receive their special post.

Feed the Birds

Reduce, reuse, recycle: Use old junk materials to create a bird feeder to attract birds to your outdoor space, you'll soon have regular visitors popping by each morning for their breakfast.

Wild Walk

Make that familiar walk more exciting, re-engage with your local environment.

Create a journey stick or pop your found treasures in to an explorers bag.

Positive Pebbles

Reduce, reuse, recycle: Use old nail varnishes to write a positive message on a pebble. Hide it on your favourite walk and let a passerby find it, your message will brighten their day.

Kite trails

Reduce, reuse, recycle: Taking a kite out is lots of fun. Can you design and build a kite that will fly? Who can build the best kite in your family?
