

1.

Round 37 924 to the nearest hundred.

2.

$$541\ 000 + 7\ 000 = \boxed{}$$

$$953\ 000 - 31\ 000 = \boxed{}$$

3.

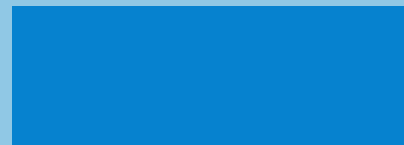

Use a written method to solve this calculation:

$$79 \times 26 = \boxed{}$$

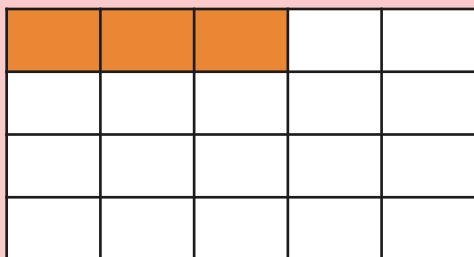

4.

The perimeter of this shape is **18cm**.
What is the length of this side?
?cm

2cm

5.

I need to colour in 12 more parts to show $\frac{4}{5}$.

Is Henry correct?
Explain your reasoning.
