Here are the rules to your Maths starter -

Use the numbers above.

You can use every number twice but don't have to use ever number twice.

You can add, take away, multiply or divide.

Try and complete the calculations in your head but you may also write out any methods to help you.

➤ What is the biggest number you can make?
➤ What is the closest number you can make to 379?
➤ What is the closest number you can make to 4000?
