

# Measuring

Can you make your own ruler?

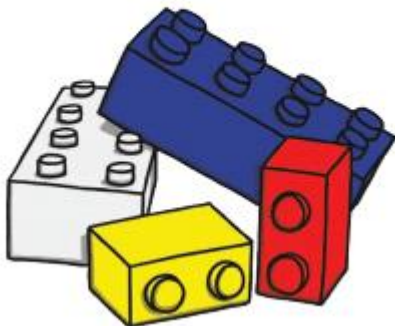

Once you have made your own ruler you can begin by measuring things around you. Remember to measure and record your answers carefully.

How many things can you find which measure exactly 15 cm?

How many building bricks tall are you?

Measure the length of your foot. Then measure the distance between your wrist and your elbow. Compare the two distances.

How far does the toy car travel if you roll it down a slope? Which one goes the furthest?
